

FOR IMMEDIATE RELEASE

February 8, 2013

Other Provinces Taking Notice...

Okotoks, Alberta, CANADA

The Foothills Salvage and Recycling Society (FSRS) has successfully launched their new facility and are well on their way to keeping usable items out of the landfill. The response from the communities within the Foothills has been overwhelming. The increase of interest within the province as well as requests for mentorship from Southern Alberta, British Columbia and Saskatchewan has been incredible. The Board and Management are thrilled at the opportunity to be leaders in reducing waste and mentors to communities across Canada.

The FSRS is seeing consistent patronage from Saskatchewan and British Columbia as well as Lethbridge right up to Fort McMurray. They would not have been able to open the doors without the contributions and support of these patrons.

Currently, we are improving our structural guidelines for increased efficiency. The time the volunteers have dedicated is extremely valuable to us. Recently, there have been a few volunteers move on due to a change in our policies and procedures. Currently, we are looking for new volunteers who have the same passion for the community and environmental stewardship.

The FRSS is always looking for individuals willing to commit a few hours per week and/ or individuals with a trade / talent to work on short term projects. If you are interested in volunteering please contact FSRS directly at www.foothillssalvagecenter.com or 403-648-3764.

About Foothills Recycling and Salvage Society

The Foothills Salvage and Recycling Society (FSRS) is a Not For Profit Society dedicated to keeping usable and recyclable items out of the landfill. In doing so the FSRS makes their items accessible through their facility: to purchase at an affordable price or free through programs such as the Family Resource center in Okotoks. The FSRS's goal is to help the residents of the Foothills area, not only with affordable items, but also through donations of proceeds to charitable organizations within the Foothills, annually.
